

Summary Timeline

Summary Timeline Re: N60

Timeline A

Time period	Subject	Summary events	Outcome
March 2020	Child A	Health Visitor home visit for 15-month review. A seen to have positive attachment to both parents who report her to be walking unaided and eating a varied diet with good routines. A sleeping on arrival and difficult to engage for development review. Weight 15.66kgs. Above the 99.6th centile. Length and head measurements declined. Discussed diet with parents as A still having full bottles of milk as well as her meals during the day.	Guidance given on diet. Follow up 18month development review.

Timeline B

Time period	Subject	Summary events	Outcome
September 2020	Child A	16 th : Mum makes contact with GP with concerns around A reducing her intake of solid food for a few weeks. Refusing any drink other than milk or water. A reported to be looking pale. 17 th : Blood tests contaminated – not suitable for analysis. 21 st : Health Visitor makes contact with mum. Telephone contact due to Covid restrictions. Mum reports that A is refusing all foods and will only drink milk. Mum reports that A's development is not	GP advised for blood test. GP consults with Health Visitor following call with mother and asks that support is provided to the family whilst they await blood results. Further guidance to mum on feeding. Request made to bring A to clinic for developmental review.

		<p>where it should be and her speech has not progressed in the past few months.</p> <p>23rd: Appointment with the Health Visitor. Mum concerned about A's development. A very pale/grey in colour including her lips and gums. Weight taken which shows loss of 3 kg since March. A lethargic and moaning. Refused to take part in any of the developmental assessments. Health Visitor concerned at the amount of milk A was still having and the impact this may have on her wanting to eat solid food.</p> <p>Discussion between Health Visitor and GP. Concerns expressed that A appears to have regressed with her development and does not want to eat or walk.</p> <p>GP made contact with mum to request a same day appointment. Mother refused. Appointment made for the following morning.</p>	<p>Health Visitor gave guidance on how mum could support A with her eating through play. Mum was not keen to reduce milk intake. Further contact to take place at home via a video call to observe A and to repeat development check.</p> <p>Follow up discussion with the GP.</p> <p>GP advised that she wanted A to be reviewed by a Paediatrician in hospital.</p>

Timeline C

September 2022	Child A	<p>24th: A seen by Health Visitor and GP. Mum reported A hadn't taken any solid foods for the last 7 days and barely walking/crawling. Noted to be very clingy, grizzly and extremely pale.</p> <p>Admission to hospital. On admission A was noted to be very pale, lethargic and irritable. A had severe anaemia with the consultant identifying probable cause of low HB nutrition.</p>	<p>GP arranged for A to attend PAU for an assessment.</p> <p>A received a blood transfusion and an urgent referral to the dietician. A was admitted to the ward.</p>
----------------	---------	--	--

	<p>Support was provided to mum whilst on the ward around feeding. Mum reported that A continued to refuse solid foods.</p> <p>25th Paediatric nurse made contact with Safeguarding CNS to advise of admission.</p> <p>Further conversation with mother raised concerns around parenting as mother gave examples of times when her son had been unsupervised. Discussion with mother regarding referral to the Local Authority for support.</p> <p>26th : NPTCBC received a referral from Swansea in respect of A. Information passed in respect of A's presentation to the hospital and comments made by mum.</p> <p>Support continued to be offered to mum with feeding A, Mum was noted to refuse solid food at times. Father attended the hospital on the 26th. Staff supported father with feeding A and she was noted to start eating a little food on the 27th. This continued with A slowly increasing her intake of food with father noted to engage well.</p> <p>28th contact made with Safeguarding CNS in regards to any updates on the referral made to the Local Authority. Safeguarding CFS Telephone conversation with social worker regarding referral made. The case is awaiting allocation and a full agency assessment will be commenced.</p> <p>Discussion took place with parents and Health Visitor. A was discharged home.</p>	<p>Contact made to Swansea Social Services, emailed written referral and advised to contact the ward if more information was required.</p> <p>Outcome: Family to open for assessment.</p> <p>Outcome joint agency investigation. Police arrested parents. A and sibling went to stay with maternal grandparents. Both parents granted Police conditional bail return on 27th October 2020 with a</p>
