SHARING THE EXPERIENCE

In partnership with:

University of South Wales
Prifysgol De Cymru

Every business has problems - its how you solve them that makes the difference. This workshop introduces a range of proven process improvement techniques as a structured system to guide you through the stages of practical problem solving. The aim of the workshop is to help drive continuous improvement, development of a lean transformation programme and to implement a distinct culture of change within your organisation.

Topics covered include:

- Problem definition and measurement
- Root cause analysis tools
- Improvement planning and implementation
- Process mapping and analysis
- Solution generation
- Improvement review and closure
